Sandawha

- EST 2004 -

## Jeju Camellia Flower

Sandawha means Camellia flower in Korean.

In cold winter, Camellia blooms alone after all the flowers disappeared. Camellia have lined the shores of Jeju Island for centuries as a barrier to block coastal winds.

Camellia with the strong vitality is a rich source of antioxidants, vitamins, Phyto squalene and Omega-6 fatty acids. It boosts skin-hydration, reduces the appearance of fine lines and neutralizes damaging free-radicals.

As a life science research and development company, we strictly harvest camellia in our own garden and develop reliable products in our 3 labs and 2 factories.

# Philosophy

## *Trustworthy*

Our products are plant-based natural and natural originated ingredients. We do not use any artificial ingredients or potential harmful chemicals. All products are safe for sensitive and delicate skin types. They have all passed the human skin irritation test. Our product are not tested on animals.

## *Organic*

Our products are formulated with innovative and scientifically proven complex ingredients which are made from plant extracts instead of low-priced chemicals.

## *Deep-rooted*

We encompasses the entire scope from selecting ingredients to manufacturing to final sales as one-stop system and cooperate with well-known cosmetic ingredients life science institute BioSpectrum

*Camellia Oil Duo*

# Sandawha Extra Virgin Camellia Face Oil

30 ml / 1.01 fl. oz.

## Product details:

This perfect blend of camellia oil and botanical oils provides lightweight nourishing. It penetrates deep into skin and improves the complexion. It restores a smooth and healthy youthful glow.
