The variety is amazing & these facial masks fit like a glove! I have really enjoyed every mask in this pack!

Love these masks, highly saturated... Love that they are vegan and cruelty free. Love that they don't use 7 million unnecessary ingredients.

These masks come out of the bag absolutely covered in the gel-like serum from the bag...my skin feels absolutely fantastic and looks it too

I was so surprised as to how good this product was! I was a bit skeptical at first because the price is so cheap compared to other masks, but it made my skin buttery smooth. I didn't expect there to be actual clay in the mask but that just shows how high quality it is.

Excellent repair cream!!!

Such a great repair cream for skin that feels tired and needs that boost. I really loved how fresh my skin looked and felt after consistent usage of this product. Another great thing I appreciate about this cream is that it's easily absorbed and is non greasy. Totally recommend!!!

After trying this non irritating Salve Cream, **it was totally a game changer for my skin.** It helps to repair my problematic skin and heals it more quickly than I expected with their certified functional ingredients such as Defensil Plus (30,000 ppm), Amino Acid Complex (50,000ppm) and lastly Madecassoside (1,000ppm). Amazing 🤩

This product is silver, especially that the ampoules come in the form of bags. This is a good thing because I was afraid of glass ampoules 🤩 The price is excellent and the quantity is large, and one bag is divided into two days, but I am currently using it all for one day for my face and neck, I recommend it
